NWLA LOCKSMITH CERTIFICATION

FRIDAY MAY 20, 2016 8 AM - 5 PM
 TUKWILA COMMUNITY CENTER
 12424 42ND AVE S TUKWILA, WA 98168

CLASS FEE \$75
BANQUET ROOM "A"
 Includes Boxed Lunch

INSTRUCTOR: FRANK LONERGAN, CML, CMS, CSP ALOA ACE INSTRUCTOR

AM: Frank will work with the students to prepare for the afternoon testing.

PM: Testing will take place.

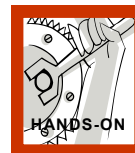

With this certification a locksmith earns the right to be a voting member of the NWLA and may also be allowed to be a participating member of the NWLA Board. The test is of basic locksmith skills: automotive, master keying, safes, deposit boxes, life safety and general locksmithing. The test is administered in two parts - one part is hands-on and one part is given in written form.

Students who complete and pass the test will receive a certificate and NWLA certification plaque .

CLASS ID - F115MB

CAM/CABINET LOCK SERVICING

FRIDAY MAY 20, 2016 8 AM - 5 PM

Longtime friend of KDL and all NW locksmiths, Joy Skowron, brings her training expertise and best in the business automotive locking knowledge to our trade show classes. You will learn about the equipment that you need & practices to adopt to begin saying "YES" to automotive requests and watch your business grow .

CLASS ID - FP15BC**AUTOMOTIVE LOCKSMITH BASICS**

THIS CLASS IS FOR ENTRY LEVEL LOCKSMITHS

FRIDAY MAY 20 2016 1 PM - 5 PM
TUKWILA COMMUNITY CENTER
 12424 42ND AVE S TUKWILA , WA 98168

CLASS FEE \$50
BANQUET ROOM "C"

Instructor: GABE DE GAALON, CPL, OWNER GABES LOCK & KEY, CERTIFIED INSTRUCTOR

Class will begin with a brief history of automotive locks featuring early lock systems, security driven innovation, key and lock types, and regular vs higher security locks and keys. We will also take a brief look at the differences between mechanical keys, electronic security systems in keys and ignitions, programming and cloning. Students will learn:

- Three ways to make a new key from an old key or code tag. Duplicating and cutting to code.
- Five ways to generate a new key to replace a lost key. Code off lock, reading wafers or pins, impression a key, wafer readers, disassemble and read wafer numbers.
- Rekeying or replacing vehicle locks. Identifying equipment needed such as wafers, pins, caps and locks from **STRATTEC** or ASP. Removing locks from doors, ignitions and trunks.
- Auto opening tools and techniques. Opening kits, selecting door to open and equipment concerns.

Instructor will also provide an overview of working with and servicing motorcycle locks.

CODELOCKS USA - SECURITY LOCKDOWN VIA NETCODE PORTAL**CLASS ID - SNCMA****NO CHARGE MEETING ROOM "A" 8 AM - 10 AM****INSTRUCTOR: ALFREDO MONDRAGON, WESTERN REGIONAL SALES MANAGER**

Generate time defined access codes with NetCode enabled locks. Utilize the web-based NetCode Portal, create and send access codes with specific valid date, time and duration. NetCode is particularly useful where access is required for routine servicing or for maintenance purposes. Via the Portal, a manager can generate time sensitive codes for the engineer to gain access to remote locks, cabinets or enclosures. Whether controlling access to certain areas or safeguarding confidential or dangerous materials, CodeLocks products offer a convenient standalone access control solution. Designed for a range of applications; retrofit, new install or upgrade.

OLYMPUS CABINET LOCKS**CLASS ID - SNCMB****NO CHARGE MEETING ROOM "B" 8 AM - 10 AM****INSTRUCTOR: ADAM NELSON, OLYMPUS CUSTOMER SERVICE MANAGER**

At Olympus we manufacture our locks to be easily serviced in the field by the locksmith technician or facilities maintenance team. In addition to our small pin products on Ntl D4291/D4292 and CCL R1 keyways, we also offer a selection of cabinet locks to key into common keyways such as Corbin Russwin, Best, Medeco, Yale and Schlage keyways. The focus of this class will be to get hands-on experience in assembly, dis-assembly, pinning of locks and lock selection for various applications. Additional focus will include information on our product families, new locks, keyways offered, and the main features and benefits of our locks. Lots of great giveaways.

MASTER LOCK DOOR HARDWARE**CLASS ID - SNCBA****NO CHARGE BANQUET ROOM "A" 8 AM - 10 AM****INSTRUCTOR: PAT MULCAHY, MASTER LOCK COMPANY, NATIONAL SALES MANAGER**

- Designs
- Finishes
- Available keyways
- Troubleshooting hardware installations
- Troubleshooting application options
- Available functions

Students will leave the classroom with a good amount of free hardware and display materials.

JMA TRANSPONDER TRAINING**CLASS ID - SNCCA****NO CHARGE CLASSROOM "A" 8 AM - 10 AM****INSTRUCTOR: GABRIELA MORAIS, JMA CUSTOMER SERVICE MANAGER**

Class participants will learn the basics of transponder keys & will receive hands-on experience cloning & re-chipping transponder keys.

- Transponders and how they work
- Transponder types
- Duplication of transponder keys
- Types of transponder keys
- Cloning
- Chipless keys

NEW FROM STANLEY BEST - WIRELESS FACILITIES LOCKDOWN**CLASS ID - SNCCB****NO CHARGE CLASSROOM "B" 8 AM - 10 AM****INSTRUCTOR: BOB KARRER, STANLEY BEST FACTORY TRAINED TRAINING SPECIALIST**

Introducing "SHELTER" a unique combination of code-compliant mechanical hardware and proven technologies. "SHELTER" is a responsive lockdown solution ideal for all types of buildings, environments and budgets. "SHELTER" does not offer access control capabilities. The 9KX is meant to be used as a standard mechanical lock for everyday operations. In emergency situations, the outer lever can be locked via a wireless lockdown signal to prevent intruders from entering a building or room. The system is configurable allowing a fob to lockdown a single door, a group of doors or an entire building. This is all managed through the web-based software.
