**ABUS "VITNESS" HIGH SECURITY SYSTEM 1PM - 3:30PM N/C**  
**TCC BANQUET ROOM "B"**  
*Instructor: JADE HOLLAND , ABUS USA,*  
**DIRECTOR OF SALES**

ABUS locking systems offer the US market a new and innovative high security solution. Our advanced key control features are patented until 2034, with lifetime trademark thereafter. As an added security measure, we stock exclusive keyways instead of side bars. Our special key shapes are unique and not easily duplicated, allowing for the highest level of security. Our high security locking systems are versatile. We work with our customers to build the right keying system for their needs. Our products are ideal for a variety of facilities, including, courthouses, law enforcement stations, retail stores, hotel/ hospitality chains and more. We look forward to introducing this new lock system to you.

**KEYLESS ACCESS CONTROL 1PM - 3:30PM N/C**  
**FOR CABINETS AND OTHER ENCLOSURES**  
**TCC BANQUET ROOM "C"**  
*Instructor: DAVID DODD, COMPX TERRITORY SALES MGR*

David Dodd will present keyless access control possibilities spanning from the CompX eLock stand-alone access control locks to the CompX mechanical combination lock, DUAL-AXESS. The course will review the key features of the NEW CompX eLock 150 Series lock - cabinet and refrigerator, StealthLock, Regulator, and the NEW RegulatorAT lock. David is the West Coast territory manager of sales for CompX and can devise any number of methods for keyless access control for hospitals or medical centers in the pharmaceutical areas, cabinet locking solutions for school campuses, government buildings and many, many more special industrial/commercial facilities/sites.

**SATURDAY MAY 20, 2017**  
**NO CHARGE TRAINING SESSIONS**

**BEST "SHELTER" LOCK-DOWN SYSTEM 8AM - 10AM**  
**TCC MEETING ROOM "A"**  
*Instructor: ALAN SHARPE , BEST ACCESS SALES MANAGER*

Introducing "SHELTER", a unique combination of code-compliant mechanical hardware and proven technologies. "SHELTER" is a responsive lockdown solution ideal for all types of buildings, environments and budgets. "SHELTER" does not offer access control capabilities. The 9KX is meant to be used as a standard mechanical lock for everyday operations. In emergency situations, the outer lever can be locked via a wireless lockdown signal to prevent intruders from entering a building or room. The system is configurable allowing a fob to lockdown a single door, a group of doors or an entire building. This is all managed through the web-based software.

**JMA TRANSPONDER UPDATE 8AM - 10AM**  
**TCC CLASSROOM "A"**  
*Instructor: GABRIELA MORAIS, CUSTOMER SERVICE MGR*

Class participants will learn the basics of transponder keys and will receive hands-on experience cloning and re-chipping transponder keys

- Transponders and how they work
- Transponder types
- Duplication of transponder keys
- Types of transponder keys
- Cloning
- Chipless keys

**OLYMPUS CABINET LOCKS 8AM - 10AM**  
**TCC MEETING ROOM "B"**  
*Instructor: ADAM NELSON, TERRITORY SALES MANAGER*

At Olympus we manufacture our locks to be easily serviced in the field by the locksmith technician or facilities maintenance team. In addition to our small pin products on Ntl D4291/D4292 and CCL R1 keyways, we also offer a selection of cabinet locks to key into common keyways such as Corbin Russwin, Best, Medeco, Yale and Schlage keyways. The focus of this class will be to get hands-on experience in assembly, dis-assembly, pinning of locks and lock selection for various applications. Additional focus will include information on our product families, new locks, keyways offered, and the main features and benefits of our locks. Lots of great giveaways!

**LOCKSMITH WEB SITE DESIGN MADE EASY 8AM - 10AM**
